How to Ethically Prepare a Client for a Child Custody Evaluation**

*Iberville Room
Custody & Ethics Committees*

Ever wonder where that line is between enough and too much? Is it okay to do more than just describe the evaluation process to a client and leave it to the client to figure out the rest? What about referring to sites on the Internet that guide clients through the evaluation process? Is it inappropriate to tell a client to be on his or her "best behavior" during the evaluation or is that too leading? And what about the use of a different mental health professional to prepare the client for the upcoming evaluation? The speakers will explore these and other weighty issues in a discussion of how to navigate the process to maximize a positive outcome for your client without so leading the client as to create a misleading impression for the court (and thus a potential fraud on the tribunal).
